

How to Create a Haven for Monarch Butterflies

Alpine Town Hall Saturday April 30th 1pm

Would you like to be part of creating your own special garden where Monarch Butterflies can thrive? Please join us on April 30th at 1pm at the Alpine Town Hall (Alpine Woman's Club) 2156 Alpine Blvd.

Milkweed is the only plant that the Monarchs can lay their eggs on. Without milkweed the monarchs cannot reproduce. In the past year Monarchs have declined by 90% due to pesticides and development. With your help we can help the Monarch butterflies lay their eggs in your garden. **Milkweed plants will be available for purchase.**

Speakers will be Carlette Anderson Director of Alpine's Community Wildlife Habitat Program and Jon Green former Director of Back Country Land Trust.

If you are unable to attend, and would like to order milkweed plants, please call Jon Green 619-504-8181.
